## Project Coordination · Software Development

Gómez Palacio, Durango, Mexico aborrego@notionware.mx github.com/borregoalice
aliciaborrego.notionware.mx

### PROFILE

Since 2019 I have run workshops and training programs, from La Laguna to national and international audiences. Today I lead NotionWare and combine that coordination experience with software development, automation and AI bots. I worked six years as a medical interpreter, where I learned to listen closely and explain complicated things in plain words.

### EXPERIENCE

**Bilingual medical interpreter**
U.S. healthcare services
Spanish – English interpreting and training of new interpreters.

**Logistics coordination and instruction**
Violence-prevention collective, La Laguna
Workshops and training programs, in La Laguna and at national and international level.

**Operations Coordinator**
RIA LAC

**CEO**
NotionWare · Soluciones Infinitas
Software development, automation and AI bots.

### STRENGTHS

- Planning and logistics for workshops and events
- Leading teams and collaborations between organizations
- Turning operational needs into technical solutions
- Clear communication in Spanish and English

## TECH STACK

| | |
|---|---|
| **Development** | Node.js, Java, React Native, Angular |
| **Databases** | PostgreSQL, MySQL |
